

PHOTOGRAPHY LIST

When you interview your wedding photographer select one that photographs in the style you desire. Most photographers will already photograph the moments as they happen. You will not need to supply them with the list. However, you should have a short family list so all of your family knows they will need to be ready. Your photographer will also be able to focus on the most important groups and move on to documenting your day as it unfolds.

Brides Parents

Group Portraits flow better if all people are there and the photographer can build the groups up and down.
